

No. 038/2018

22 January 2018

TO ALL BRANCHES WITH BTPFS MEMBERS

Dear Colleague

BTPFS Sanitary Provision

Following representation to BTPFS regarding the sanitary provision across the BT Estate we have now received an update from the business.

With respect to the provision of sanitary bins in the operational and unoccupied BT Estate, BTPFS are progressing well although the timeline with PHS - which is the waste licensed waste carrier providing disposal and recycling - and the production of so many new bins is causing some delay.

However, in summary:

- BTPFS will be installing 4825 additional buildings with a PHS serviced sanitary provision.
- One bin per building, in either the unisex or ladies toilet.
- The roll out is due to commence during Q4.
- BTPFS are finalising the timeline with PHS, this centres around the large amount of new bins which PHS have to manufacture.

Any questions should be addressed to Sally Bridge sabridge@cwu.org

Yours sincerely,

Sally Bridge
