

**Female Ag Tech Innovator**

# Oluyemisi Iranloye

Managing Director / CEO,  
Psaltry International Company  
Limited

**NIGERIA**

**About the Business:**

Psaltry International Company Limited was incorporated in 2005 to process cassava into food grade starch and high quality cassava flour used by multi-national companies in the production of breakfast cereals, seasoning, biscuits etc. Presently, it is the first in Africa and second in the world to use cassava in the production of sorbitol used in tooth paste industry. Psaltry operates an inclusive business model where over 10,000 small holder farmers produces its raw material – cassava. Psaltry currently impacting over 100,000 families with their earning power, improving from less than a dollar per day in 2013 to 10 dollar per day in 2021 due to the huge farming opportunities provided to them.

**About the Leader:**
