# Grafton Seating: Elegant, Durable & Versatile

Discover the Grafton Seating Collection – where elegance meets durability and versatility. Our chairs are thoughtfully designed to provide exceptional comfort, enhanced ventilation and flexibility.

The unique perforations in the injection-moulded backrest offer the same benefits as a mesh chair while ensuring long-lasting durability. With its sleek design, the rolled edges of the backrest extend to the seat shell, creating a seamless waterfall effect.

Whether you need seating for an office, school or university campus, Grafton offers a cohesive design aesthetic that supports agile learning and working.

Stackable: Our 4 Leg and Sled Base chairs can be conveniently stacked up to 8 high (6 if upholstered), 12 on a dolly allowing for easy storage and space optimisation.

# Grafton Polypropylene & Frame Colours

Wide Colour Selection:

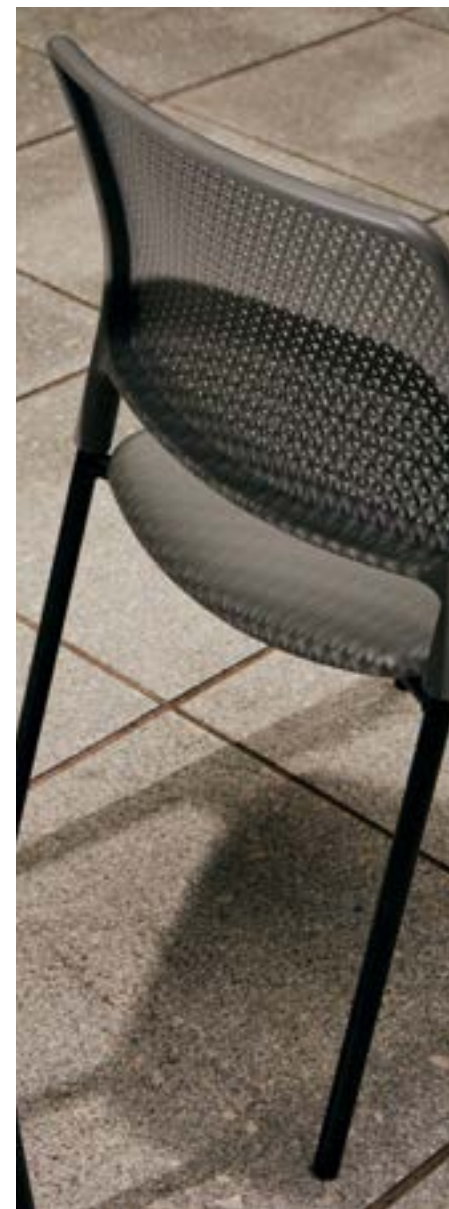

Choose from a wide range of colour choices for your seating with 8 polypropylene seat and backrest colours. Additionally, we offer 3 in-stock frame colours to perfectly complement any setting.

## Upholstery options

Opt for a polypropylene or a fully upholstered seat, based on your preference.

The Grafton collection features a black, 100% recycled polypropylene shroud to protect under structure for upholstered chairs except stools.

Contact your KI Account Manager for the most up-to-date fabric options.

<https://www.kieurope.com/customer-service/legal-privacy/warranties>.

## Environmental Information

We prioritise sustainability in our manufacturing processes and materials.

### Materials

- 100% polypropylene backrest & seat
- 100% recycled polypropylene underseat shroud
- 100% powdercoated steel frame
- Seat pad - 4mm foam fixed with adhesive directly onto seat shell, fabric secured by C-Gex with bias banding
- Task base - 100% nylon
- Foot ring - chrome plated steel
- Glides - nylon with steel pin
- Castors - nylon with steel pin & components
- Tablet arms - worksurface 15mm BB/BB birch ply board, finished with laminate surface, two-coat lacquer edge. Arm 100% powdercoated steel.

## Certification

- Indoor Advantage™ Gold - Furniture**  
This product has been independently assessed by [SCS Global Services](#) to be certified for low volatile organic compound (VOC) emissions. The Indoor Advantage™ Gold standard aligns with both ANSI/BIFMA M7.1 and X7.1, and CA01350. Suitable for projects aiming to achieve [SKA](#), [BREEAM](#), [WELL](#), [LEED v4](#) and more.
- EN16139:2013, Test Level 1 - Furniture**  
Strength, durability and safety - Requirements for non-domestic seating (for adults weighing up to 110kg)

## Design Resources

Images libraries, certificates, CAD/Revit models and more resources are available on [www.kieurope.com/grafton](http://www.kieurope.com/grafton)

## Care & Maintenance Instructions

Proper care and maintenance are essential for preserving the appearance and finish of your Grafton Seating. Here are some guidelines for each component:

## Polypropylene shells

To clean the poly shells, use a soft cloth with mild soap or detergent and lukewarm water. Avoid using solvents, citrus/orange-based cleaners, or heavy-duty kitchen cleaners. Stubborn spots like chewing gum can be removed with cigarette lighter fluid. Wipe dry immediately. For light cleaning and restoring the lustre of smooth surfaces, use a non-abrasive all-purpose cleaner. High-quality wax can also be used to protect the finish.

## Powdercoated metal frames

For powder coated metal frames, remove stubborn spots with cigarette lighter fluid and wipe dry immediately. It is recommended to protect frames from water, rain, ice, snow and salt. For gloss finishes, use a silicon-based spray polish. For thin surfaces scratches, wipe with thinners or spray with clear lacquer. Deep scratched can be sanded with emery paper, cleaned and repainted with appropriate spray gloss / matte paint. Always ensure colour matching by spraying onto white photocopy paper for reference.

## Laminate surfaces

To clean laminate surfaces, use an all-purpose cleaner to remove ink stains, crayon marks and water-based paint stains. Use thinners to remove oil-based paint stains (apply onto a soft cloth, not directly on the surface). For superficial surface scratches, use linseed oil. Avoid using thinners on PVC edging, ass it may cause damage. Do not use excessive water to clean work surfaces, as it can lead to warping or thickness changes.

## Vinyl fabric

For vinyl fabric upholstery, use warm water with normal dishwashing liquid and a soft cloth. Dry with a clean, soft cloth.

## Polyester & wool fabric

To clean polyester and wool fabric upholstery, use dry carpet pellets or powder for wet stains. Let the area dry and brush off or vacuum. For dry stains, apply a standard upholstery cleaner foam, spray lightly, let it sit for 5 minutes and brush off.

## Packaging & Shipping

We believe in responsible packaging. Our Grafton Seating is shipped in 100% recyclable cardboard cartons, with 1 task chair or 2 stacking chairs per carton.
