Calling on **small and medium-sized enterprises** (SMEs), their supporters, and **food system leaders!** All over the world, SMEs make billions of decisions that can shape our food systems for the better. Join us for a **regional dialogue** to share your story and ideas of how SMEs are supporting the goals of the **Food Systems Summit**.

Let's put SME voices and examples at the centre of **future policy and business decisions**. Your opinion matters. Your actions inspire. **Your ideas can be heard!**
