2. Introduction

Suppliers are required to provide Credit Cover to Low Carbon Contracts Company (LCCC) in order to mitigate the risk of non-payment of obligations that are used to fund Contract for Difference (CfD) Generator payments and Nuclear Regulated Asset Base (RAB) payments to the Revenue Collection Counterparty (RCC). This working practice specifies the relevant activities for Suppliers, EMR Settlement Ltd (EMRS) and LCCC to enable the provision, reporting on and management of Credit Cover within the CfD and Nuclear RAB schemes.

2.1 Scope and Purpose

This working practice details how Suppliers can provide, and request the return of Credit Cover as part of their obligations under the CfD and Nuclear RAB schemes. It also details how EMRS will record and monitor Credit Cover against a Supplier's requirements, and provides details on how and when EMRS will use it. This document covers any Credit Cover provided by Suppliers for use in the CfD and Nuclear RAB schemes.

2.2 Main Users of this Document and Responsibilities

Name	Responsibilities
Low Carbon Contracts Company (LCCC)	Responsible for authorising return or draw down of Credit Cover, specifying the Letter of Credit (LoC) requirements and acceptable risk ratings for banks issuing LoCs
EMR Settlement Ltd (EMRS)	Responsible for receiving, managing and monitoring Credit Cover under the CfD and Nuclear RAB schemes in line with regulations
Supplier	Responsible for ensuring they maintain valid Credit Cover with EMRS to a minimum of the calculated Credit Cover requirement

2.3 Associated Documents.

This working practice is based upon, but does not replace the regulations overseeing CfD and Nuclear RAB and should be read in conjunction with the following:

Document

Contracts for Difference (Electricity Supplier Obligation) Regulations (2014), and all subsequent amendments¹

The Nuclear Regulated Asset Base Model (Revenue Collection) Regulations 2023 and all subsequent amendments²

EMRS Guidance G5 - Supplier CfD and Nuclear RAB Credit Cover³

EMRS Working Practice WP41 - Late Payment Procedure⁴

3. Supplier CfD and Nuclear RAB Credit Cover

3.1 Credit Cover requirements

It is the responsibility of Suppliers to lodge and maintain sufficient valid Credit Cover to meet their Credit Cover requirement on each day during the relevant period. As a minimum, a sufficient level is equivalent to the last 21 days of Chargeable demand (Gross Demand⁵ - EII exempted electricity) multiplied by the Interim Levy Rate in force on the day for which the calculation is being performed⁶. This can be provided either via a valid Letter of Credit (LoC) and/or cash transferred into the correct bank account⁷.

EMRS will inform a Supplier of their Credit Cover requirements on a daily basis and will compare this against their currently lodged Credit Cover. Where found to be insufficient, a Supplier will be allowed a two-day cure period to rectify their shortfall, after which additional escalating actions will be taken.

Credit Cover for CfD and Nuclear RAB obligations are maintained and monitored separately with separate accounts and LoCs for each scheme.

3.2 Credit Cover validity

Credit Cover must be provided and maintained in a valid form. Cash Credit Cover must be lodged in the correct LCCC bank account (for ease of reference it is included in section 4.1 and 5.1 – scheme dependant).

For LoCs, these must:

- Be in a valid format⁸
- Have the LCCC as the beneficiary
- Be issued via SWIFT to LCCC's agent (NatWest)
- Be issued by a bank with a suitable short-term rating (i.e. 1/3 of the following):
 - o F1 rating by Fitch Ratings

⁷ LCCC's bank account details can be found in step 4.1.1 t

 $^{^8}$ The valid LoC template for Supplier CfD and Nuclear RAB Credit Cover can be found in Appendix 1

- o P-1 rating by Moody's
- A-1 rating by Standard and Poor's
 (or by a bank specifically approved by the LCCC)
- Not yet be expired

3.3 Use of Credit Cover

Credit Cover can be drawn down should a Supplier not meet their obligations to fund CfD or Nuclear RAB payments. This relates to any payments for Interim Levy Rate, mutualisation amounts, reserve payments and quarterly reconciliation amounts. Payments that are excluded from Credit Cover draw down are the operational levy and late payment interest.

Where Credit Cover cannot be drawn down, alternative escalating actions will be taken to encourage Suppliers to meet their obligations⁹.

⁹ Details can be found in EMRS Working Practice WP41 – `Late Payment Procedure', https://emrsettlement.co.uk/publications/working-practices/

4. CfD Interface and timetable information

4.1 Lodging Credit Cover

Suppliers can submit Credit Cover at any point, either in response to a requirement (e.g. a Credit Cover Default Notice) or as part of their own risk management activities.

¹⁷ The Credit Cover Default Amount is equal to the difference between the requirement on the 2nd WD after the original shortfall (the 'cure day') and the Credit Cover lodged at the end of that day. A Credit Cover Default obligation can only be met through the lodging of cash Credit Cover.

4.7 Monitoring Credit Cover validity

EMRS will review on a daily basis whether the banks who have issued LoCs are valid under the CfD scheme. This is to prevent the loss of Credit Cover available to LCCC if an issuing bank were to default.

¹⁸ Where it is perceived that a Supplier is unlikely to meet their CfD obligations, Credit Cover will be retained until the Supplier has demonstrated compliance.

4.8 Drawing down Credit Cover

EMRS will look to draw down on Credit Cover if a Supplier has not made a relevant payment. A two-day cure period after the due date is available for those Suppliers who are not considered at risk of defaulting on their payments, however timing and ability to draw down is at LCCC's discretion. Relevant payments include Interim Levy amounts (and data reconciliations), mutualisation amounts and reserve/quarterly reconciliation amounts.

¹⁹ Where possible, EMRS will first look to draw down cash only for efficiency. Following this we will prioritise LoC only and then a combination of both to meet the outstanding relevant amount.

4.9 Monitoring Credit Cover expiry

EMRS will monitor the length of validity of any received Letters of Credit (LoCs) to prompt preventative action from Suppliers to ensure sufficient Credit Cover is provided. Suppliers should monitor their own LoCs as they are responsible for ensuring sufficient Credit Cover is lodged with EMRS to meet their obligations.

³⁴ Where it is perceived that a Supplier is unlikely to meet their Nuclear RAB obligations, Credit Cover will be retained until the Supplier has demonstrated compliance.

5.8 Drawing down Credit Cover

EMRS will look to draw down on Credit Cover if a Supplier has not made a relevant payment. A two-day cure period after the due date is available for those Suppliers who are not considered at risk of defaulting on their payments, however timing and ability to draw down is at LCCC's discretion. Relevant payments include Interim Levy amounts (and data reconciliations), mutualisation amounts and reserve/quarterly reconciliation amounts.

5.9 Monitoring Credit Cover expiry

EMRS will monitor the length of validity of any received Letters of Credit (LoCs) to prompt preventative action from Suppliers to ensure sufficient Credit Cover is provided. Suppliers should monitor their own LoCs as they are responsible for ensuring sufficient Credit Cover is lodged with EMRS to meet their obligations.

⁴⁵ Footnotes are for guidance only and should not be replicated in the Letter of Credit when issued.

Regulation 19 of the Contracts for Difference (Electricity Supplier Obligations) Regulations 2014 (the "Regulations") requires each supplier to ensure that on any day the CfD counterparty holds sufficient Credit Cover from such supplier to meet that supplier's Credit Cover requirement for that day. Credit Cover can be provided in the form of cash and/or Letter of Credit. Low Carbon Contracts Company Ltd ("LCCC") is the CfD counterparty referred to in the Regulations. LCCC is required by Regulation 20(7) of the Regulations to publish a document setting out the terms of the Letters of Credit which it is likely to regard as appropriate. This Letter of Credit template constitutes that document.

⁴⁷ Letters of Credit provided by a bank other than National Westminster Bank plc must be provided through the interbank SWIFT banking system to: National Westminster Bank Plc – SWIFT Code NWBKGB2L. Letters of Credit provided by National Westminster Bank plc cannot be provided through the interbank SWIFT system and will be communicated to EMRS directly. ⁴⁸ Regulation 20 of the Regulations requires the Issuer to be a person holding the "required rating". A person holds the "required rating" if the person has been assessed by:-

[•] Fitch Ratings Limited (registered company number 01316230) as having a short term debt rating of "F1" or better;

Moody's Investors Service Inc. (incorporated in the US State of Delaware with file number 0577904) as having a short term debt rating of "P-1" or better; or

[•] Standard & Poor's Financial Services LLC. (Incorporated in the US State of Delaware with file number 4621989) as having a short term debt rating of "A-1" or better.

⁴⁹ The applicant (i.e. the Principal) must be the relevant supplier. The name of the electricity supplier needs to match the name of the licenced electricity supplier as held with Ofgem (https://www.ofgem.gov.uk/publications/list-all-electricity-licensees-including-suppliers).

⁵⁰ Letters of Credit must be in pounds sterling.

via your bankers National Westminster Bank Plc (SWIFT code NWBKGB2L) subject to the following conditions:
